

**ENJOY CLEAR HANDS-FREE CALLS
AND SURROUND SOUND MUSIC**

EXPERIENCE A NEW WORLD OF SOUND FOR YOUR IN-CAR CALLS

The new Jabra FREEWAY in-car speakerphone makes hands-free calls sound better than ever – and makes controlling them effortless. It is the first in-car speaker-phone to have a 3-speaker stereo system and virtual surround sound, which makes the audio crisper, clearer and more vibrant than ever before. And with its dual microphone technology, you can say goodbye to unwanted background noise.

The Jabra FREEWAY is extraordinarily easy to operate. That's because with the Jabra FREEWAY, voices are in control. To start with, voice guidance will talk you through setup and pairing. After that, it will announce the name of the incoming caller, ask if you want to accept their call and will tell you battery level and connection status. You then simply use your own voice to make, answer, end, redial or reject calls - while keeping both hands safely on the wheel.

If you use two mobile phones, don't worry. The Jabra FREEWAY pairs with both simultaneously. And there is no need to press buttons to turn the Jabra FREEWAY on or off. It automatically turns on when you get into your car and off when you get out.

REASONS TO CHOOSE THE JABRA FREEWAY

- Supreme audio with 3 speakers, virtual surround sound and noise reduction
- Make and answer calls using just your voice
- Turns off and on automatically

EASY TO USE – FEATURE OVERVIEW

- A Answer/end button
- B Volume up/down buttons Tap to turn volume up one or down
- C Mute button
- D Voice command button Press to activate voice features
- E FM transmitter button
- F On/off power switch
- G Micro USB charging port
- H Charging indicator light

EASY INTEGRATION WITH YOUR MOBILE PHONE

Voice guidance talks you through setup. When installed on the sun visor it turns on and off automatically using the built-in motion sensor. Up to 8 different mobile phones can be paired with Freeway – 2 active mobile phones at a time.

URNS ITSELF ON AND OFF AUTOMATICALLY

You don't need to actively turn Freeway on and off due to the built-in motion sensor, which also secures long talk time – up to 14 hours and 40 days of standby time. Your Freeway confirms when you enter the car that your mobile phone is connected.

MAKE AND ANSWER CALLS JUST USING YOUR VOICE

Voice-controlled calling means you can accept, reject and make calls with your voice. Just reply "answer" or "ignore". Use the Phone Command feature to activate voice-controlled calling.

ENJOY CLEAR CALLS AND IN-CAR MUSIC

Experience rich, crisp sound with 3 speakers and virtual surround sound. Stream music, podcast and hear turn-by-turn directions wirelessly from your phone.
